Applicant(s): Marshall D. Snavely

Serial No.: 09/507,166

Filed: February 18, 2000

For: Enhanced Solubility of Recombinant Proteins

Docket No.: A-496A

Group Art Unit No.: 1653

Examiner: Anish Gupta

COMMUNICATIONAssistant Commissioner for Patents
Washington, D.C. 20231**BEST AVAILABLE COPY**

Sir:

Nola Diamond, assistant to the attorney for Applicant, telephoned Examiner Gupta on April 24, 2002 to inquire about the status of the referenced application. According to the Examiner, he did not receive a response to the Notice to Comply mailed September 26, 2001. Ms. Diamond indicated that a response to the Notice was mailed on October 25, 2001 and also noted that a post card dated January 9, 2002 was received from the USPTO indicating that the response to Notice was received. Unfortunately, after speaking directly with the Examiner today, he communicated that he did not receive that response.

Since this application is a divisional of U.S. Serial No. 08/997,918, filed December 24, 1997, the Examiner requested that we provide him with a statement indicating this fact and instruct the PTO to use the computer readable format filed in the parent application as the computer readable form for this application. Per his request, enclosed is a copy of the Attorney Statement Pursuant to 37 CFR 1.821(e) filed on October 25, 2001 which instructs the PTO to use the only CRF filed in the parent application.

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

The computer readable form in this application, Serial No. 09/507,166, is identical with that filed in Application Serial No. 08/997,918, filed December 24, 1997. In accordance with 37 CFR § 1.821(e), please use the only, computer readable form filed in that application as the computer readable form for this application. It is understood that the Patent and Trademark Office will make the necessary change in application number and filing date for the computer readable form that will be used in this application.

In addition, I hereby state that the paper copy of the Sequence Listing in this application and the computer readable form of the Sequence Listing submitted in the parent case are the same and contains no new matter.

Respectfully submitted,
